PROCUREMENT POLICY

TechNova Solutions Pvt. Ltd.

Effective: July 2026

Procurement Lifecycle

The **Procurement Lifecycle** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Procurement Lifecycle to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Procurement Lifecycle to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Purchase Requests

The **Purchase Requests** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Purchase Requests to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Purchase Requests to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Purchase Requests to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Purchase Requests to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Purchase Requests to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Purchase Approvals

- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

RFQ Process

The **RFQ Process** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of RFQ Process to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of RFQ Process to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of RFQ Process to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of RFQ Process to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of RFQ Process to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Purchase Orders

- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Vendor Evaluation

The **Vendor Evaluation** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Vendor Evaluation to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Vendor Evaluation to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Vendor Evaluation to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Vendor Evaluation to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Vendor Evaluation to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Contract Approvals

The **Contract Approvals** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Contract Approvals to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Asset Procurement

The **Asset Procurement** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Asset Procurement to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Asset Procurement to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Asset Procurement to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Asset Procurement to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Asset Procurement to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

IT Procurement

All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Emergency Procurement

The **Emergency Procurement** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Emergency Procurement to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Emergency Procurement to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Emergency Procurement to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Emergency Procurement to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Emergency Procurement to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Payment Terms

The **Payment Terms** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Payment Terms to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Compliance

The **Compliance** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Compliance to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Compliance to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Compliance to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Compliance to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Compliance to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Approval Matrix

The **Approval Matrix** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Approval Matrix to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of Approval Matrix to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 5.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 5.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

FAQs

The **FAQs** process at TechNova Solutions is strictly governed to ensure efficiency, transparency, and fiscal prudence. This document serves as the official directive for all procurement-related activities.

Article 1: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of FAQs to mitigate risk and optimize value.

- **Provision 1.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 1.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 1.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 2: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of FAQs to mitigate risk and optimize value.

- **Provision 2.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 2.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 2.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix

based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 3: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of FAQs to mitigate risk and optimize value.

- **Provision 3.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 3.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 3.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 4: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of FAQs to mitigate risk and optimize value.

- **Provision 4.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.2:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including

vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

- **Provision 4.3:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.4:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.5:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.6:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.
- **Provision 4.7:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits. Misuse of funds or non-transparent vendor selection processes will result in disciplinary action.

Article 5: Operational Governance

Strict compliance with the guidelines in this article is required for all departments. The Procurement Department, in coordination with Finance, oversees the lifecycle of FAQs to mitigate risk and optimize value.

- **Provision 5.1:** All procurement activities must be initiated through the authorized ERP portal. Any manual intervention or bypassing of established workflows is considered a policy violation. Approvals must be obtained according to the designated authority matrix based on the financial value of the transaction. All supporting documentation, including vendor quotes and technical specifications, must be archived for a period of seven (7) years to support periodic internal and external audits.
