REFUND AND CANCELLATION POLICY

TechNova Solutions Pvt. Ltd.

Effective: July 2026

Refund Eligibility

This document outlines the official policy for **Refund Eligibility** as adopted by TechNova Solutions Pvt. Ltd. Customers are encouraged to review these terms carefully to understand their rights and the procedures required for managing their accounts and service agreements.

Article 1: Policy Guidelines

Strict adherence to these provisions is necessary to ensure consistent customer experience and operational compliance. This article specifies the requirements for Refund Eligibility.

- **Directive 1.1:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
- **Directive 1.2:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
- **Directive 1.3:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
- **Directive 1.4:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy

require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.

- **Directive 1.5:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
- **Directive 1.6:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
- **Directive 1.7:** All customer requests concerning Refund Eligibility must be submitted through the official portal. Requests will be verified against service records and processed according to the applicable service level agreement. Any deviations from this policy require formal authorization from the Finance Department. All transactional records associated with these requests will be stored in our secure database for a minimum of seven (7) years to ensure compliance with financial audit standards. Customers will receive a notification once the processing is complete. Please maintain all correspondence as proof of request.
