SERVICE LEVEL AGREEMENT

TechNova Solutions Pvt. Ltd.

Effective: July 2026

Uptime Commitment

This document establishes the official terms and conditions regarding **Uptime Commitment** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Uptime Commitment outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Uptime Commitment outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified

timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Uptime Commitment outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Uptime Commitment outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Uptime Commitment outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Uptime Commitment, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Availability

This document establishes the official terms and conditions regarding **Availability** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Availability outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Availability outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Availability outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Availability outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Availability outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Availability, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Response Times

This document establishes the official terms and conditions regarding **Response Times** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Response Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe

as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Response Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Response Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Response Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Response Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Resolution Times

Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Resolution Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Resolution Times outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Resolution Times, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Support Tiers

This document establishes the official terms and conditions regarding **Support Tiers** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Support Tiers outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Support Tiers outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe

as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Support Tiers outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Support Tiers outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Support Tiers outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Support Tiers, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented

in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Maintenance Windows

This document establishes the official terms and conditions regarding **Maintenance Windows** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Maintenance Windows outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Maintenance Windows outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.2:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.3:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.7:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Maintenance Windows outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.4:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.6:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Maintenance Windows outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.2:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.4:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.7:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Maintenance Windows outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.2:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.4:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Maintenance Windows, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Incident Management

This document establishes the official terms and conditions regarding **Incident Management** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Incident Management outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Incident Management outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified

timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Incident Management outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Incident Management outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Incident Management outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Incident Management, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Escalation Procedures

This document establishes the official terms and conditions regarding **Escalation Procedures** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Escalation Procedures outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Escalation Procedures outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.2:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.3:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.7:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Escalation Procedures outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.4:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.6:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Escalation Procedures outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.2:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.4:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic

alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.7:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Escalation Procedures outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.2:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to

be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.4:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Escalation Procedures, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Performance Metrics

This document establishes the official terms and conditions regarding **Performance Metrics** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Performance Metrics outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Performance Metrics outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified

timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Performance Metrics outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Performance Metrics outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Performance Metrics outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Performance Metrics, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly

documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Reporting

This document establishes the official terms and conditions regarding **Reporting** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Reporting outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Reporting outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Reporting outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Reporting outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Reporting outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding Reporting, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in

the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Examples

This document establishes the official terms and conditions regarding **Examples** as provided by TechNova Solutions Pvt. Ltd. This agreement serves as the foundational commitment between TechNova Solutions and our clients, ensuring transparency and service reliability.

Article 1: Operational Standards

The operational standards for Examples outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 1.1:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for Examples outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for Examples outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for Examples outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for Examples outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding Examples, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.2:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.3:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.4:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 1.5:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.6:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 1.7:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 2: Operational Standards

The operational standards for FAQs outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 2.1:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.2:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 2.3:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.4:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.5:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.6:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 2.7:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 3: Operational Standards

The operational standards for FAQs outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 3.1:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.2:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.3:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.4:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.5:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 3.6:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 3.7:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 4: Operational Standards

The operational standards for FAQs outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 4.1:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.2:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.3:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 4.4:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.5:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.6:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 4.7:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Article 5: Operational Standards

The operational standards for FAQs outlined here are binding. Compliance with these protocols is mandatory for all support personnel and service delivery teams.

- **Clause 5.1:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

- **Clause 5.2:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.3:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.4:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.5:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.6:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.
- **Clause 5.7:** Regarding FAQs, TechNova Solutions commits to maintaining the highest standards of service delivery. All performance data will be monitored in real-time. In the event of a deviation from agreed-upon metrics, an automatic alert will be triggered to the relevant department head. Resolution must be initiated within the specified timeframe as per our internal tracking system. All technical actions must be thoroughly documented in

the incident report to facilitate audit readiness. Records are to be retained for seven (7) years to ensure compliance with company policy and legal requirements.

Appendix: Base Prompt

Generate an official Service Level Agreement (SLA) for TechNova Solutions Pvt. Ltd.

Length:
70â€“100 pages.

Topics:

- Uptime commitment
- Availability
- Response times
- Resolution times
- Support tiers
- Maintenance windows
- Incident management
- Escalation procedures
- Performance metrics
- Reporting
- Examples
- FAQs

Append the Base Prompt below and generate the complete document.
