ORGANIZATION STRUCTURE HANDBOOK

TechNova Solutions Pvt. Ltd.

Effective: July 2026

CEO

This handbook outlines the formal structure, governance, and operational expectations for the **CEO** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for CEO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are

transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for CEO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for CEO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels.

Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for CEO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department

head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of CEO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for CFO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels.

Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for CFO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department

head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for CFO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels.

Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for CFO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department

head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of CFO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

COO

This handbook outlines the formal structure, governance, and operational expectations for the **COO** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for COO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are

transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for COO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels.

Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for COO. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of COO, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Human Resources. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Human Resources. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Human Resources. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Human Resources. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Human Resources, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Finance

This handbook outlines the formal structure, governance, and operational expectations for the **Finance** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Finance. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Finance. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Finance, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Engineering

This handbook outlines the formal structure, governance, and operational expectations for the **Engineering** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Engineering. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Engineering. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Engineering. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Engineering. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Engineering. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Engineering, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Web Development

This handbook outlines the formal structure, governance, and operational expectations for the **Web Development** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Web Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Web Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Web Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Web Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Web Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Web Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Mobile Development

This handbook outlines the formal structure, governance, and operational expectations for the **Mobile Development** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Mobile Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.4:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.5:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Mobile Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.2:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.6:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.7:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Mobile Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.3:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.4:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Mobile Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.5:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.6:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Mobile Development. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.2:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.3:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.7:** Within the framework of Mobile Development, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Customer Support

This handbook outlines the formal structure, governance, and operational expectations for the **Customer Support** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Customer Support. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Customer Support. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Customer Support. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Customer Support. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Customer Support. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Customer Support, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Operations

This handbook outlines the formal structure, governance, and operational expectations for the **Operations** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

- **Protocol 1.1:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Operations. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Operations. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Operations. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Operations. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Operations, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Sales & Marketing

This handbook outlines the formal structure, governance, and operational expectations for the **Sales & Marketing** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Sales & Marketing. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Sales & Marketing. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Sales & Marketing, all activities must align with TechNova's core strategic pillars. - **Protocol 1.1:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.4:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.5:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Reporting Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.2:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.6:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.7:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Reporting Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.3:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.4:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Reporting Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.5:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.6:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Reporting Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.2:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.3:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.7:** Within the framework of Reporting Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Roles & Responsibilities

This handbook outlines the formal structure, governance, and operational expectations for the **Roles & Responsibilities** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Roles & Responsibilities. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.4:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.5:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Roles & Responsibilities. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.2:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.5:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.7:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Roles & Responsibilities. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.2:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.4:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.6:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Roles & Responsibilities. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.3:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.6:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.7:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Roles & Responsibilities. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.3:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.4:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Roles & Responsibilities, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Cross-functional Collaboration

This handbook outlines the formal structure, governance, and operational expectations for the **Cross-functional Collaboration** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Cross-functional Collaboration. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.4:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.5:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Cross-functional Collaboration. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.2:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.5:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.7:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Cross-functional Collaboration. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.2:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.4:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.6:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Cross-functional Collaboration. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.3:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.6:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.7:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Cross-functional Collaboration. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.3:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a

quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.4:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Cross-functional Collaboration, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes.

Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Approval Hierarchy

This handbook outlines the formal structure, governance, and operational expectations for the **Approval Hierarchy** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for Approval Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Approval Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Approval Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Approval Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Approval Hierarchy. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Approval Hierarchy, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Leadership Profiles

This handbook outlines the formal structure, governance, and operational expectations for the **Leadership Profiles** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

- **Protocol 1.1:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all

workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for Leadership Profiles. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Leadership Profiles. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Leadership Profiles. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Leadership Profiles. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Leadership Profiles, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

FAQs

This handbook outlines the formal structure, governance, and operational expectations for the **FAQs** division within TechNova Solutions Pvt. Ltd. Our organizational framework is designed to optimize efficiency, foster innovation, and clarify accountability across all levels.

Article 1: Functional Directive

The following mandates establish the operational standards for FAQs. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 1.1:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.2:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.3:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.4:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are

transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 1.5:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.6:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 1.7:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 2: Functional Directive

The following mandates establish the operational standards for FAQs. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 2.1:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations

from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.2:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.3:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.4:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.5:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 2.6:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels.

Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for FAQs. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of FAQs, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 2.7:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 3: Functional Directive

The following mandates establish the operational standards for Examples. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 3.1:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.2:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.3:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 3.4:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.5:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.6:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 3.7:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 4: Functional Directive

The following mandates establish the operational standards for Examples. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 4.1:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.2:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.3:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.4:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.5:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate

channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 4.6:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 4.7:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Article 5: Functional Directive

The following mandates establish the operational standards for Examples. These protocols must be adhered to by all team members and leadership within this division.

- **Protocol 5.1:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.2:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective

department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

- **Protocol 5.3:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.4:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.5:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.6:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.
- **Protocol 5.7:** Within the framework of Examples, all activities must align with TechNova's core strategic pillars. Personnel are responsible for ensuring that all workflows are transparent, documented, and reported through the appropriate channels. Performance metrics will be tracked and audited on a quarterly basis. Any

deviations from established procedures require prior approval from the respective department head. All documentation must be retained for seven (7) years to facilitate regulatory compliance and internal review processes. Cooperation across cross-functional teams is mandatory to achieve institutional objectives.

Appendix: Base Prompt

Generate an official Organization Structure Handbook for TechNova Solutions Pvt. Ltd.

Length:
70â€“100 pages.

Topics:

- CEO
- CTO
- CFO
- COO
- Human Resources
- Finance
