- **Regulation 1.7:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.2:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.3:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard.

Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 3.4:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.5:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.6:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.7:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 4: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 4.1:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.2:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.3:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.4:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.5:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 4.6:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.7:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 5: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 5.1:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.2:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 5.3:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.4:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.5:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.6:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. - **Regulation 5.7:** Regarding Hybrid work policy, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Equipment

This document formalizes the Remote Work Policy for TechNova Solutions Pvt. Ltd. regarding **Equipment**. Compliance with these directives is mandatory for all employees operating in a remote or hybrid capacity.

Article 1: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 1.1:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.2:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.3:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.4:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 1.5:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.6:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.7:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.2:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. - **Regulation 4.4:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.5:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 4.6:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.7:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 5: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 5.1:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.2:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 5.3:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.4:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.5:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.6:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.7:** Regarding Equipment, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Internet reimbursement

This document formalizes the Remote Work Policy for TechNova Solutions Pvt. Ltd. regarding **Internet reimbursement**. Compliance with these directives is mandatory for all employees operating in a remote or hybrid capacity.

Article 1: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.2:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.3:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard.

Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 3.4:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.5:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.6:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.7:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 4: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 4.1:** Regarding Internet reimbursement, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. - **Regulation 3.5:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.6:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.7:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 4: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 4.1:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.2:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.3:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.4:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.5:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 4.6:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.7:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 5: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 5.1:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.2:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 5.3:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.4:** Regarding Attendance, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. - **Regulation 1.7:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.2:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.3:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard.

Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 3.4:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.5:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.6:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.7:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 4: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 4.1:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.2:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.3:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.4:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.5:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 4.6:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 4.7:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 5: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 5.1:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.2:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 5.3:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.4:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.5:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.6:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 5.7:** Regarding Communication expectations, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

VPN usage

This document formalizes the Remote Work Policy for TechNova Solutions Pvt. Ltd. regarding **VPN usage**. Compliance with these directives is mandatory for all employees operating in a remote or hybrid capacity.

Article 1: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 1.1:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.2:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.3:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.4:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 1.5:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.6:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.7:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding VPN usage, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. - **Regulation 1.2:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.3:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.4:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure

consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 1.5:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.6:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 1.7:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 2: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 2.1:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed

documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.2:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.3:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.4:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.5:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 2.6:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur

through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 2.7:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

Article 3: Procedural Guidelines

These guidelines are established to maintain productivity and operational security. Employees must ensure these protocols are followed at all times.

- **Regulation 3.1:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.2:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.
- **Regulation 3.3:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard.

Records related to this policy are kept for seven (7) years to ensure audit compliance. Failure to maintain these standards may result in a formal review of remote work eligibility.

- **Regulation 3.4:** Regarding Examples, employees are expected to adhere to the standardized operational framework. Any deviation must be approved by direct management. Performance against these metrics is regularly reviewed to ensure consistency across the organization. All communications and data access must occur through secure, company-approved channels to protect corporate assets. Detailed documentation of work hours and tasks must be maintained in the central dashboard. Records related to this policy are kept for seven (7) years to ensure audit compliance.
